

"Growing up in a single parent family, my mom was often not able to be there for me as often as I know she'd have liked, because we needed to make ends meet. As an adult, that experience has stayed with me, and I was determined that I would do what I could to support families like my own – and particularly those little girls like me. I've been Matched with Adriana for more than eight years now, and it has truly been one of the greatest joys of my life. My world is so much richer for this Match – and I hope hers is as well!"
